

ABOUT ME

Computer Engineering student with a deep passion for software development, modern web technologies, and IoT-based smart systems.

EDUCATION

B.Tech Computer Engineering

Maharashtra State · Batch 2028
Currently Pursuing

12th HSC

Maharashtra State Board
Score: 67%

10th SSC

Maharashtra State Board
Score: 86%

SKILLS

HTML / CSS

JavaScript

React.js

Firebase

C / C++

MySQL

IoT / ESP32

LANGUAGES

- English
- Marathi
- Hindi

PROJECTS

Smart Garbage Collection Alert System2025

IoT Project | ESP32 · GPS NEO-6M · Firebase · React

- Real-time GPS tracking for garbage vehicles using ESP32 and Firebase, with a live React web dashboard showing vehicle locations and pushing smart alerts to users before the truck arrives.
- Integrated NEO-6M GPS module with Firebase Realtime Database for sub-second data updates and automated notification system.

Phone Number OTP Authentication2025

Web Application | React.js · Firebase Auth · JavaScript

- Built secure mobile-first login using Firebase Authentication's phone OTP API, eliminating password-based attack vectors.
- Built React.js UI with protected route guards and persistent session handling for a seamless user experience.

Student Database Management System2025

Database Design | MySQL · SQL

- Designed a fully normalized (3NF) relational schema for managing student records, courses, and grades with enforced referential integrity.
- Authored optimized SQL queries for CRUD operations, aggregate reporting views, and multi-table joins.

AI Chatbot2025

JavaScript · HTML · CSS | Live: spectacular-frangollo-7b1ee8.netlify.app

- Developed an intelligent conversational chatbot with real-time responses and natural language understanding.
- Built a responsive and modern chat UI with smooth user interaction flow.

Amazon Clone2025

HTML · CSS Only | Live: spectacular-frangollo-7b1ee8.netlify.app

- Pixel-perfect Amazon homepage clone built entirely using HTML and CSS with no JavaScript.
- Implemented fully responsive layout including navbar, hero banner, and product grid sections.

Quiz Maker2025

JavaScript · HTML · CSS | Live: spectacular-frangollo-7b1ee8.netlify.app

- Interactive quiz-building and quiz-taking app with real-time score tracking and a gamified interface.
- Supports custom quiz creation with multiple question types and instant result display.

Medical Symptom Checker2025

JavaScript · HTML · CSS | Live: spectacular-frangollo-7b1ee8.netlify.app

- Web-based medical symptom checker helping users identify possible conditions based on symptoms.
- Provides guidance on next steps and when to seek professional medical care.

INTERNSHIP

Web Development Intern — CodeAlpha 2026

Online Internship | CodeAlpha

- Completed hands-on web development tasks including building and deploying a fully responsive personal portfolio website as the primary deliverable.
- Designed and implemented CSS animations, a typewriter effect, and an integrated AI-powered chat widget hosted on Firebase Hosting.

Web Development Intern — CodSoft2026

Online Internship | CodSoft

- Completed multiple web development projects during the internship including front-end UI components and interactive web applications.
- Worked on real-world tasks covering HTML, CSS, and JavaScript, gaining practical industry experience in a remote setting.
- Delivered projects on time as part of structured internship program with professional feedback and evaluation.
